BY THE SENATE,

JANUARY 9th, 1867.

Referred to the Committee on Finance.

January 11th, 5,000 copies ordered to be printed.

ANNUAL REPORT

OF THE

COMPTROLLER

OF THE

TREASURY DEPARTMENT,

FOR THE

FISCAL YEAR ENDED SEPTEMBER 30, 1866,

TO THE

GENERAL ASSEMBLY.

ANNAPOLIS:

HENRY A. LUCAS, PRINTER.

1867.

TREASURY DEPARTMENT,

COMPTROLLER'S OFFICE,

ANNAPOLIS, January 2nd, 1867.

To the General Assembly of Maryland:

In obedience to the requirements of the Constitution and Laws the following report is respectfully submitted:

The receipts into the Treasury from all sources during the fiscal year ended September 30th, 1866, amounted to the sum of \$3,325,507.94, to which add the balance in the Treasury on the 30th September, 1865, and the total amount in the Treasury during the fiscal year was \$3,758,433.94, as will appear by reference to Statement "A," in the appendix to this report. Of the receipts the sum of \$390,901.96 was derived from the Public School tax, and \$840,695.91 from sales of Bank and Rail Road Stocks. The sum of \$1,916,510.00 was received from the ordinary sources of revenue, and exceeded the receipts from similar sources during the previous year by the sum of \$314,405.87.

DISBURSEMENTS.

The disbursements during the fiscal year, as will appear by Statement "B," amounted in the aggregate to \$3,390,617.58. Of this amount the sum of \$928,285.51 was expended in the payment of the temporary loan negotiated by the Treasurer, and in the redemption of the bonds of the Annapolis and Elk Ridge R. R. Co., and State 5 per cent. Stock.

The balance remaining in the Treasury at the close of the fiscal year, including the Public School tax, was \$367,816.26; to which may be added the sum of \$246,360.48 standing to the credit of the Free School and Sinking Funds; making the total cash balance \$614,176.74.

LICENSES, &c.

The revenue received from Clerks of Courts during the fiscal year, for Licenses, Tax on Officers' Commissions and on Commissions of Trustees, and from License to dredge for Oysters, is set forth in detail in Table No. 1, of the appendix, and amounted to \$451,653.90; which sum, after deducting the license issued to take and catch oysters, exceeds the amount received during the previous year by \$54,515.87, the year

1864 by \$71,491.59, and the year 1863 by \$101,560.44.— These figures show a large and steady increase in the revenue from this source.

Registers of Wills have paid into the Treasury for tax on commissions of executors and administrators, and on collateral inheritances, the sum of \$60,048.49; being \$1,419.80 less than was received from the same source during the previous year.

The returns and payments into the Treasury by Clerks of Courts and Registers of Wills, have been promptly made.

RECEIPTS FROM PUBLIC WORKS.

There was received from the Northern Central Rail Road Company, for the annuity due the State, the sum of \$90,000; and from the Susquehanna Canal Company, on account of interest, the sum of \$60,000.

The Baltimore and Ohio Rail Road Company paid into the Treasury \$760,083.70; a sum largely in excess of the amount received in any previous year; which indicates the eminently prosperous condition of this important public work, and its able and successful management.

There is included in this amount, the sum of \$180,000, received on account of the \$3,000,000 of Sterling Bonds, issued and delivered to this company by virtue of the Act of 1838, chapter 386.

It was provided by the Act of 1835, chapter 395, that the Treasurer should subscribe \$3,000,000 to the capital stock of the Baltimore and Ohio Rail Road Company, which subscription was to be paid out of the money received from the sale of State Bonds, and upon the condition, among others, that the company should guarantee to the State the payment, out of the profits of the work, six per centum per annum, until the profits should be more than sufficient to discharge this interest, and be adequate to a dividend of six per centum per annum among the stockholders, and then, that the State should be entitled to receive a perpetual dividend of six per centum per annum. The Commissioners appointed to sell the Bonds of the State for the purpose of raising money to meet this subscription, sold \$3,000,000 of the same to the company.

By the Act of 1838, chapter 386, it was provided that upon the return of these Bonds to the Treasurer, and a release being executed to the State by the company, of its interests under the contract made with the Commissioners, the Commissioner of Loans should deliver to the company Sterling Bonds to an equivalent amount, bearing interest at the rate of five per centum per annum, payable in London, and upon the

further condition that the company should secure by mortgage the payment of the interest on the stock created by the Act, at least ninety days before the first day of January and July in every year, for the term of three years from the date of the bonds, together with the costs of transmitting the interest, and the difference in exchange of currency between London and Baltimore.

It appears that after the delivery and sale of the Sterling Bonds, the company did remit the interest to London, including the price of exchange and expenses, and continued to do so until October, 1865, when this Department was notified through the President of the company, that its obligation to remit the interest and exchange, ceased three years after the date of the Bonds, and that it was only bound to pay to the State a dividend of six per centum in semi-annual instalments.

Because of this refusal of the company to pay the interest in London, on these Bonds, as usual, it became necessary for the Treasurer to provide for the same.

For the years prior to 1862, the rate of Exchange being low, the payments of interest on this loan made in London by the Company, including all expenses, (as it appears from a statement lately rendered to this office,) were less by more than \$70,000, than a dividend at the rate of six per centum per annum, payable here, would have amounted to; which sum—according to the construction now sought to be placed upon the Acts of Assembly above referred to—should have been paid into the Treasury.

But it does not appear that the company ever made any tender of payment of this difference, or even rendered any account; nor is there any charge on the books of this department against the company on this account; clearly showing that, in the view of the then officers of the Treasury, the obligation of the company to the State was discharged upon the payment of the interest in London, and expenses.

By reason of the high rate of exchange, the sum paid by the company for interest on these Bonds for the years 1862 to 1865, inclusive, is largely in excess of the amount which it admits to be due to the State.

For this difference the Company makes a claim against the State.

No proceeding has been taken for a judicial ascertainment of the rights of the State in the matter, as it is doubtful whether there is sufficient authority for doing so. In view, too, of the importance and gravity of the questions involved, it was deemed better to refer the whole subject to the General Assembly.

RECEIPTS FROM SALES OF BANK AND OTHER STOCKS.

The sum of \$840,695.91, was realized from the sales made by the Governor, Comptroller and Treasurer in pursuance of the Acts of 1866, chapter 155, 160 and 170, of the bank stocks and dividend stock of the Baltimore and Ohio Rail Road Company held by the State. The par value of the stocks sold, was \$773,374.66, which the amount realized exceeded by the sum of \$67,321.25. (*See Statement "F."*)

The large sum thus produced was a great relief to the Treasury. The Treasurer was enabled to meet promptly his engagements with the banks by the redemption of the temporary loan negotiated with them, and to pay other pressing demands without resorting to a sale of the bonds of the State.

The bank and other stocks held by the Treasurer for the use of the Free School and Sinking Funds were not sold.

DIRECT AND BOUNTY TAXES.

The receipts from Collectors during the fiscal year on account of direct and bounty taxes, were \$395,794.77; being \$2,742.62 less than was received on this account in the preceding year. A statement of the amounts paid by the respective Collectors, will be found in *Table No. 3*.

PUBLIC SCHOOL TAX.

There was received during the year on account of Public School taxes the sum of \$390,901.96. The balance in the Treasury at the close of the previous year, was \$248,742.26. There was disbursed to Baltimore city and the several counties the sum of \$372,914.73, leaving a balance of \$266,729.49, in the Treasury on the 30th September 1866. Of this balance the sum of \$133,306.55 was paid to the city and respective counties, during the month of October. The amount received from and paid to the respective counties and the city of Baltimore is shown by *Statement "L."*

FREE SCHOOL FUND.

There remained to the credit of the Free School Fund, at the close of the fiscal year 1865, the sum of \$43,773.34, and there was received during the fiscal year 1866, on account thereof, the sum of \$70,082.22; making an aggregate of \$113,855.56. The disbursements on the same account were \$106,256.79; leaving to the credit of the fund on the 30th September, 1866, the sum of \$7,598.77. (*See Statement "E."*)

There is a deficit in the receipts on account of this fund, when compared with the year 1865, of \$17,050.61. This was

caused by the failure of a majority of the banks which had been re-organized as National Banks, under the Act of 1865, chapter 144, to pay the school tax of twenty cents on every hundred dollars of their capital stock.

A demand was made upon the banks for the payment of this tax as contemplated by the Act of 1865, but it was complied with only in a few cases. The names of the banks, together with the amounts paid by them respectively, are given in *Statement "E."*

SINKING FUND.

The receipts on account of the Sinking Fund during the fiscal year were \$61,582.99, which added to the balance from the previous year, of \$177,178.72, make the aggregate sum of \$238,761.71; which remained to the credit of the Fund at the close of the fiscal year.

INSPECTIONS.

The Inspectors of Grain paid into the Treasury during the fiscal year \$3,040.05, being the excess of receipts from inspections after the payment of salaries and expenses.

It will appear by Statement No. 8, that the gross receipts from Tobacco Inspections were \$118,331.34, and that the disbursements amounted to \$87,376.22, leaving a balance of \$30,955.12 as nett earnings of the Warehouses. The nett receipts into the Treasury after deducting the salaries of Inspectors, were \$14,049.41.

The receipts from Inspection of Flour did not exceed, after deducting expenses, the amount allowed by law to the Inspectors for salaries, and no payments on this account were made into the Treasury.

BOUNTIES TO VOLUNTEERS.

There was disbursed during the fiscal year on account of bounties to Volunteers and others, the sum of \$727,196.91; as will appear by reference to Statement "K."

Of this amount, the sum of \$429,290, was paid to Bounty Commissioners; and the sum of \$297,906.91 directly from this department, to Volunteers and Masters.

It will also appear by Statement "K," that the total amount disbursed under the different Acts of Assembly on this account, to the 30th September 1866, is \$3,771,286.69.

Between that time and the 1st of January, 1867, the further sum of \$94,820.11 was paid.

The total amount of unliquidated claims, on the 1st Janua-

ry, 1867, will appear by the following statement carefully made up from the certified rolls, returned to this Department:

For final bounty to 720 white Volunteers, averaged at \$65.....	\$46,800 00
“ full bounty to 190 white Volunteers, at \$300.....	57,000 00
“ final bounty to 1220 colored Volunteers, at \$50.....	61,000 00
“ full bounty to 282 colored Volunteers, (free or slave,) averaged at \$250.....	70,500 00
“ full bounty to 1650 former slaves, at \$100.....	165,000 00
“ Masters' claims, 389 at \$100.....	38,900 00
	<hr/>
	\$439,200 00
Estimated for rolls not yet returned,.....	20,800 00
	<hr/>

Total amount of claims outstanding and un- paid on the 1st January, 1867.....	\$460,000 00
--	--------------

This aggregate will be largely reduced by the forfeiture of the right of some of the Volunteers to bounty, through desertion, and by the death of others without heirs, entitled under the law.

But few of the white Volunteers included in the foregoing statement, although they were discharged from service more than eighteen months ago, have filed claims to bounty. The fact is the same with reference to some of the colored regiments. If these Volunteers had not forfeited their right to bounty, or being dead, if there is any relative entitled, it is more than probable that application for the same would have been made long since.

The opinion is therefore confidently entertained, that the entire present liabilities of the State on this account, may be discharged with less than \$350,000. The receipts into the Treasury during the current fiscal year from ordinary sources of revenue, will be fully adequate to the payment of this amount, as well as to the settlement of ordinary demands against the Treasury.

There may also be deducted from this estimate, the balance of more than \$50,000 remaining in the hands of Bounty and County Commissioners, and the City Register of Baltimore, which will be returned to the Treasury. The Commissioners of Queen Anne's county have already paid in \$5,290, a portion of the excess in their hands.

The attention of the General Assembly is respectfully called to the necessity for some legislation providing for a settlement with these officers.

The duties imposed upon this Office by the several Bounty Acts, have been exceedingly onerous and complicated. The many defects in the Acts referred to, together with the reckless action in several instances, of officers, in the authentication of claims, and in certifying to the identity of claimants, greatly increased the difficulties surrounding the settlement of these claims.

In the disbursement of so large an amount, in sums ranging from fifty to three hundred dollars, the hope was scarcely entertained that this Office would be entirely successful in defeating fraudulent claims. Many were presented, but by the exercise of care, and the use of other means in the possession of the Office, they were generally detected; so that the amount of fraudulent claims paid directly from this Department, does not exceed two thousand dollars. In the year 1864, under the provisions of the Acts of that year, a large sum was placed in the hands of the County Commissioners of the several counties, and the City Register of Baltimore, for the payment of bounty to white and free colored Volunteers. Payments of the bounty were made by them to colored Volunteers appearing on their rolls as free, who, as it was afterwards ascertained, were slaves at the time of their enlistment, and only entitled to one hundred dollars, and not to two hundred and fifty dollars—the amount paid. The loss on this account, so far as ascertained is about \$7,000. Its extent cannot be fully determined until there is a settlement with these officers.

EASTERN SHORE RAIL ROADS.

There was paid during the fiscal year on account of the State's subscription to the stock of certain Rail Roads on the Eastern Shore, made by virtue of the Act of 1860, chapter 303, the sum of \$137,852.75, as follows:

To the Eastern Shore Rail Road Company.....	\$66,607 75
Maryland and Delaware Rail Road Company	56,245 00
Philadelphia and Baltimore Central Rail Road Company	15,000 00

The balances due the Philadelphia and Baltimore Central and Eastern Shore Companies, have been paid in full. There was due, at the close of the fiscal year, to the Maryland and Delaware Company \$15,105.00.

The Kent County Rail Road Company having complied with the requirements of the Act of 1860, the Treasurer, on the part of the State, has subscribed to its capital stock to the amount of \$101,525.

THE ESTIMATES.

The probable receipts into the Treasury, under the present revenue laws, within the current fiscal year which ends September 30th, 1867, as will appear by Statement "C," are estimated at \$2,010,000.

The disbursements during the current year are estimated in Statement "D," at \$2,007,600.00.

PUBLIC DEBT.

It will appear from Statement "J," that the present debt of the State is \$10,791,802.32:

If there be deducted from this amount, the par value of the productive capital of the State, as set forth in Statement "I," and stocks of the Sinking Fund, with the balance to its credit, without reference to the unproductive capital of the State, which is of great value, or the balance in the Treasury proper, there remains the sum of \$2,392,821.12.

The Sterling Bonds of the State, issued under chapter 416 of 1838, of which the amount of \$802,000 are still outstanding, were made by the provisions of the Act redeemable at the pleasure of the State after the 1st of January, 1865.

These bonds, however, are payable in London, and at the present rate of exchange, could not be redeemed without serious loss to the Treasury.

The attention of your Honorable Body is called to the fact that the coupons attached to these bonds are exhausted, and that the collection of the interest is attended with considerable inconvenience to the holders. The most feasible remedy would be to authorize the Treasurer, on the presentation and cancellation of the old, to issue new bonds.

The following statement will show the character of the State debt redeemed during the fiscal year ended September 30th, 1866, and the amount disbursed on that account:

Temporary Loan including interest.....	\$895,033 64
Bonds of the Annapolis and Elk Ridge Rail Road Company.....	22,022 70
State 5 per cent. stocks.....	11,229 17
	<hr/>
	\$928,285 51

The receipts from sales of the Bank and Road Stock were not sufficient for payment of this debt—the difference, amounting to \$87,589.60, was paid from the general Treasury.

AGRICULTURAL LAND SCRIP.

The Public Land donated by the Act of Congress approved July 2nd, 1862, and accepted by the State under the Act of

1864, chapter 90, amounts to two hundred and nine thousand nine hundred and twenty acres. No part of the scrip issued and delivered to the State has yet been sold. A proposition was made to this Office for the purchase of the whole amount, but it was not accepted, for the reason chiefly, that it was considered too low.

ASSESSMENT.

The assessed value of real and personal property in the State, liable to direct taxation, as will appear by *Statement "H,"* is \$286,530,838.34.

The aggregate amount of Direct taxes levied thereon, at the rate of five cents in the hundred dollars, is \$143,265.42; of Bounty taxes at the rate of ten cents, is \$286,530.83; and of Public School taxes at the rate of fifteen cents, is \$429,796.25.

A general assessment and valuation of property was provided for by the Act of 1866, chapter 157. Forms for a return of the assessment were prepared at this Office, as required by the Act, and transmitted with as little delay as possible, to the respective Clerks of Courts and the City Register of Baltimore, for the use of the Assessors.

The 17th and 18th sections of the Act, provided that the Assessors should complete the assessment, and make a return thereof to the several County Commissioners and Boards of Control and Review, before the first Monday of October, 1866; but the Assessors in Baltimore city and in a few of the counties, although they promptly entered upon their duties, were unable to complete the same by the time limited. It was deemed important that the work should be completed within the time prescribed, but as the provisions of the Act were considered merely directory, and as the work already done would have been useless, unless finished, the Assessors were advised to complete the same. By the 26th section of the Act, the Clerks of the respective Boards of Control and Review and County Commissioners are required to prepare from the Assessor's statement a summary statement, showing the description of property assessed and the value thereof, and to return the same to the Comptroller before the first Monday in February, 1867. Some of these officers will not be able to perform the duty by the time prescribed.

By reason of the unfinished condition of the assessment, the Department is not in the possession of such information as will justify an estimate of the aggregate value of the real and personal property of the State. It is believed, however, that when compared with the previous assessment, there will be a very large increase, and such as will warrant a considerable reduction in the present rate of taxes.

The first section of the Act provides that all property, real, personal and mixed, of all kinds and description whatever, shall be liable to valuation and assessment. The Assessors have generally complied with this provision. The information thus obtained as to the value of all the property within the State may be of interest and advantage. Some portions, however, of the property thus assessed, it is beyond the power of the State to tax, because of her contracts exempting it, and other, for the want of jurisdiction.

Other descriptions of property, as will be seen by reference to the third and fourth sections of Article 81 of the Code, have heretofore been exempt. It is questionable whether all the property embraced within the provisions of these sections, should be released from taxation.

EXPENDITURES.

It may be well to notice in conclusion, the disbursements of the Treasury during the last five years—between the 30th of September, 1861, and the 30th of September, 1866—on account of unusual appropriations and extraordinary demands. The principal items are as follows :

For tax paid General Government.....	\$371,300
Exchange for paying interest on Sterling Bonds, (excess over previous rates).....	550,000
Bounties to Volunteers, including appropriations for their relief.....	3,850,000
State's subscription to Railroads.....	213,000
	<hr/>
	\$4,985,000

During the same period the expenses of the Constitutional Convention and two extra sessions of the General Assembly, and unusually liberal appropriations to educational and charitable Institutions, were paid. The direct taxes for two of the years were two and a half mills on the dollar, and for the other three years one and a half mills.

When we consider these heavy payments in excess of and beyond the ordinary expenses of the State Government, and remember that the public debts of many of the States of the Union, by reason of the expenses attendant on the late war, have been greatly increased, it is gratifying to know that the bonded debt of this State has been increased and her invested capital diminished but in the sum of \$1,341,695.91.

Respectfully submitted,

ROB'T J. JUMP,
Comptroller.

APPENDIX.

104213

APPENDIX.

STATEMENT A.

Statement showing the Total Receipts into the Treasury in the Fiscal Year ended 30th September 1866, to have been \$3,325,507.94; which, added to the balance in the Treasury as of September 30th, 1865, will make the aggregate in the Treasury during the Fiscal Year \$3,758,433.94.

There was received into the Treasury during the Fiscal Year ended 30th September 1866, the sum of \$3,325,507.94, on the following accounts, viz:		
Auction Duties,.....		\$13,643 50
Bank Stock—for Dividends.....		58,687 29
Baltimore and Ohio Rail Road Company—one-fifth of Receipts from Passengers on Washington Branch....		459,368 50
Baltimore and Ohio Rail Road Company—Dividends Main Stem,.....		60,995 20
